

Conflict Minerals Statement

NOTICE TO OUR CUSTOMERS

In accordance with the application of the Law Dodd-Frank chapter 1502, and Regulation 2017/821 of European Parliament, as a steel supplier we inform you that our company and our products are exempted from any certification procedure.

Although some of our products might include minerals listed as conflict ones in their chemical composition, AUSA Special Steels is exempt to certificate their origin, because we do not import metals included in Annex I of Regulation 2017/821.

In case that your company would be included in any regulations which have been indicated before, please contact us. We will study your situation and we will use all of our means in order to satisfy your requirements.

Sincerely,

A handwritten signature in black ink, appearing to read 'A. Pino', with a horizontal line underneath.
