

RoHs Statement

NOTICE TO OUR CUSTOMERS

In accordance with the application of the RoHs Directive, as steel supplier we inform that the products supplied by our company are not included within the scope of this Directive. The reason is that they are not considered as Electrics and Electronics equipment or components. They are therefore free of any kind of related certification.

All offered steel grades do not content in their composition, deliberately, any substance which is regulated by this Directive in concentrations bigger than permitted (exemptions included); so, they can be incorporated in your products and process with total guarantee of compliance.

Sincerely,

Quality Department
